MF2624/MF2624<sup>plus</sup>

## A4 Colour All-in-one

The Olivetti d-Color MF2624 and d-Color MF2624plus A4 colour multifunctional systems, with their **compact modern design**, represent the ideal solution for work environments where space is limited but demands for good performance, professional results and reliability remain high.

The **4.3" touch panel** and programmable keys are intuitive to use, while the dual scan automatic feeder for single-pass **duplex scanning** improves work throughput resulting in increased productivity.

The bypass and paper trays (with a 550 sheet maximum capacity) provide the ideal handling of mid-volume workloads and enables documents to be produced on different types of paper media.

The toner utilises a new technology which is able to amplify **colour and vibrancy** giving images an excellent quality.

The **standard\* Wi-Fi and Wi-Fi Direct interfaces** and compatibility with AirPrint and Olivetti Mobile Print protocols enable these machines to respond to the growing demands of businesses "on the move".

Low emissions, low energy consumption, long-life components, minimum noise and recycled materials all make for an impressively **low environmental impact**.
